VANITY FAIR

Brand Mission

Vanity Fair is the premier publication for Hollywood obsessives, the insider's favorite source for arch political analysis, and a trusted home for incisive narrative journalism. Our mission is to capture the zeitgeist and point our readers to what's ahead in the culture. With sophistication and wit, we explore the intersection of power and personality, profiling outsize characters and exposing the roots of their influence. Our goal is to offer both insight and entertainment—reading, watching, or listening to Vanity Fair is always a pleasure, never a bore. Across platforms, VF stands for ambitious storytelling, iconic images, and an enlightened, worldly point of view.

"Vanity Fair's mission is to hold a mirror to society—we celebrate the best parts of global culture even as we interrogate the forces that shape it. Pop culture can be profound, current affairs can be absurd, and our journalism thrives in both worlds. Our subjects are expansive, eclectic, and unapologetically glamorous, and our access allows us to not only observe the zeitgeist, but define it. Across every platform, we harness the tensions of modern life to tell stories that illuminate, provoke, and endure."
